🏢 EXPERIENCE

🔴 **Software Engineering Consultant** 2024 – Present
avlindfors (Tele2) · Stockholm, Sweden

Continued my engagement at Tele2 under my own consultancy. Rebuilt the login experience to meet European accessibility standards, for all Tele2 brands, using a Swedish BankID integration. Delivered several greenfield internal tools with role-based authentication via the company's internal identity provider (Curity & Keycloak).

React TypeScript AstroJS Node.js Micro Frontends React Query (tRPC) Azure DevOps

🔴 **Freelance Project** 2024
Ljusverket [🔗](#) · Stockholm, Sweden

Designed and developed a full-stack rental platform for a film lighting equipment company. The customer-facing site features a browsable inventory, user authentication, and light list management. Built an accompanying admin tool for invoice and inventory management, Mailgun for transactional Emails and AWS S3 for PDF storage.

Laravel React Tailwind MySQL Mailgun AWS S3 GitHub Actions Digital Ocean VPS

🔴 **Software Engineering Consultant** 2021 – 2024
Alphadev (Tele2) · Stockholm, Sweden

Collaborated closely with design and stakeholder teams to migrate multiple legacy services to modern platforms, consolidating several brands into a 'whitelabel' platform. Working across React frontends and Node.js backends in a micro frontend architecture, using tRPC for type-safe communication.

🔴 **Software Engineering Consultant** 2020 – 2021
Forefront Consulting (Coop) · Stockholm, Sweden

Developed APIs for order intake and payment processing, and developed authentication systems serving both online and in-store customers. Integrated an E-identification solution for one of Sweden's first unmanned grocery stores.

Java Spring Boot Kafka React Vue

🔴 **Full Stack Developer** 2019
Tablecheck · Tokyo, Japan

Built and maintained Frontend applications, APIs and third-party integrations for a restaurant reservation platform. Worked in a cross-functional team alongside product managers, designers, and QA.
